

HAUS STEEL FRAMING

Building With Steel

HAUS STEEL FRAMING SYSTEMS, INC.

STEEL MAKES SENSE

- Haus Steel Framing uses software to custom design residential, commercial buildings, storage sheds garages and trusses.
- Our roll forming process produces the steel stud to fabricate the wall panels, roof and floor trusses.
- Truss Designs are stamped by a Professional Engineer.
- Steel is a superior product lighter and stronger

- Steel is impervious to insects, termites, rodents, mold, fungi, or any other destructive organisms.
- Steel is fire resistant
- Steel is 60% lighter than wood
- Steel is 100% recyclable

For your next building project specify steel.
